

HiYa

Height-adjustable tables encourage posture changes to promote movement and well-being, so people can comfortably do their best work. The HiYa table is an affordable solution with design flexibility that supports the ergonomic needs of your workforce. A freestanding, height-adjustable table that provides an extended range of adjustment to accommodate more people and their diverse workstyles. Its broad selection of widths creates design flexibility for any setting.

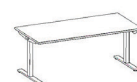

Features

- A simple, intuitive paddle provides easy adjustment and control
- Top with the option of knife cut edge finish can be specified
- Telescopic beam allows to choose any width between 120 - 180 cm (optional)
- Combination with Drift- and Universal screen program of Haworth is possible
- GS certification
